What are the Orks? The Orks are literally bunch of Fungi’s. They grow from spores in a variety of species and love to steal, loot, and fight! Their ramshackle vehicles are imaginative and lethal with lots of quirks and dangers to both the user and the receiver. To play Orks is to embrace the Waaagh! and have a lot of fun building and playing your army.

Army Difficulty 1-5: 1. Orks have a large battlefield presence and are forgiving due to their variety and simple application of Auras. They can be fielded without having to worry about super precise tactics and pack plenty of punch.

Strengths: Orks can form massive hordes of some of the cheapest infantry in the game all the way up to one of the largest unit sizes of Orks. Their hordes literally boost the leadership of the army as well. They boast massive amounts of Assault weapons and a quirky shooting mechanic

that gives a flavorful surprise to friend and foe on how effective it will be each turn. Their Vehicles are very cheap to field due to their quirks as well, helping them feel like the massive green horde they are supposed to be on the table.

Weaknesses: The army has limited effective shooting compared to some other armies. Their Melee is formidable and their HQ and Advisors focus that even more. Their Vehicles have a tendency to stop working temporarily during the battle sometimes as well, which can throw a spanner in the finely tuned machine. Their leadership suffers without direct intervention or large mobs nearby.

Army Abilities: The Orks have a series of special rules that set them apart from the rest of the Codexes in the 40k settings. You will find them listed here to save on repetitive sections. Reference this section when consulting their rules.

Dakka – Each unmodified roll of a 6 To Hit causes one additional Auto Hit.

'Ere We Go! – This model may reroll failed Charge rolls.

Mob Rule – 12" True Aura, friendly units may treat their Ld equal to the number of models in this unit.

Poor Maintenance – In each of your Command Phases, roll a d6 for each unit with this rule in your army. On a 1, the unit must decide if it will Move or Shoot this turn.

If elected to Move, it may Advance and Fall Back this turn but cannot Shoot or Charge.

If elected to Shoot, it may Shoot in the Shooting Phase, but cannot Move, Advance, Charge, or Fall Back.

High Altitude models MUST always move, and can never opt to Shoot instead of Move because of Poor Maintenance.

Common Wargear

In order to reduce redundancy throughout the Codex, common Wargear upgrades for units and models will be included here for your quick reference.

- 'Ard Case – This model loses Open Topped and its Firing Ports.
- Aerial Red Paint – This model gains M+10.
- Assault Ramps – This model gains Assault Ramps.
- Extra Armour – This model may treat Crew Stuns as Weapon Disables instead. Choose as soon as you receive a Crew Stun result.
- Forcefield – This model gains a+ Invulnerability Save.
- Fuel Mixa Grot – One Use Only. This model Advances 6 instead of rolling d6. Declare before choosing to roll for Advance distance.
- Grot Oiler – One Use Only. This model may reroll the Repair Die (either to restore service or number of wounds restored).
- Grot Riggas – This model gains Heal.
- Red Paint – This model gains M+2.
- Stikkbomb Flinga – This model gains a 5+ Invulnerability Save vs Ranged Attacks.
- Targeting Squig – This model may reroll To Hit with ranged weapons.

- Turbo Charga - You may declare an Advance in the Movement Phase instead of the Shooting Phase when nominating this model to Move. If you roll a 1 this model suffers 1 Mortal Wound and cannot Move, Advance, Charge, or Fall Back until your next Movement Phase. You do not count as having Advanced this Turn (meaning you can still Advance in the Shooting Phase).

Clans

Ork Clans specialize in different aspects. The following are Clans you can play with to change the play style of your forces. If you wish to play the Codex with no modifications, select the Average Clan.

Average:

- No changes to datasheets in this Codex

Bad Moons:

- Posh Lifestyle: Models in your army may not claim Objective Markers in the enemy deployment zone.
- Wealthiest Gitz: Models in your army trigger Dakka on a 5+ instead of a 6+ To Hit.

Blood Axes:

- Sneaky Gitz: Models in your army gain Stealth and Outflank. If they already have Stealth they gain Shroud.
- Survivors of Da Big Party: Models in your army must reroll successful Ld tests.

Da Red Revolution:

- Grot Warmachines: All Vehicle, Titanic Vehicle, Monsters, and Titanic Monsters with the Ork keyword suffer W-2 but gain BS-1 (Improves by 1).
- Only Grots: This army may not include any Ork keyword units that are not Vehicle, Titanic Vehicle, Monsters, or Titanic Monsters.

Deathskulls:

- Hurry Up and Loot: All models in your army must declare Charges if they can legally do so, and may not do anything such as fire Heavy Weapons or Advance if it would compromise a legal Charge that is in range.
- Scavenging Gitz: Each unit in your army gains one Looted Die for each W# of each model it slays. Looted Dice may be used to reroll any To Hit die in relation to this unit, but you cannot reroll a reroll.

Evil Sunz:

- Hyper ADHD Gitz: Infantry models in your army only count as half a model for purposes of contesting an Objective Marker.
- Speed Freeks: All Vehicles gain M+2. Aircraft may turn 90 degrees after firing in the Shooting Phase as well as before moving in the Movement Phase.

Freebooterz:

- Pirate Gitz: All Infantry models in your army gain Objective Secured.
- Lurking Pirates: Your entire army must deploy in Reserves, even if it is normally not allowed to do so.

Goff:

- Goff is Da Best: All models in your army may reroll 1s To Hit in Melee.
- Obnoxious Gitz: Infantry models in your army only count as half a model for purposes of contesting an Objective Marker.

Snakebite:

- Feral Gitz: This army may not field any Vehicle models, but all models gain M+2.
- Tough Squiggitz: Infantry, Monstrous Infantry, Monsters, and Titanic Monsters inflict a -2 To Wound on Poisoned (#+) weapons rolling To Wound them.
- Poisonous Fauna: All Squig keyword models in your army gains Poisoned (3+) on its Melee weapons.
