What are the Squats? The Squats are one of 71 accepted forms of mutation in the Imperium of Man. They form Leagues that operate under their own jurisdiction for self-governing. Most importantly for them is ancestry, mining, and salvage rights. They use advanced and lost technology that the Imperium no longer has access to.

Army Difficulty 1-5:

Strengths: The Squats are incredibly well equipped with a durable statline. They have access to a variety of punishing weapons and their infantry have a large amount of weapons to handle most situations. Their resilience from Stubborn ensures they are difficult to shift off of Objective Markers, even if they are losing combat.

Weaknesses: The army is a very new re-release of models from GW. They are limited in variety and do not bring light infantry that can be used as an attritional sacrifice. They also have limited access to Blast weapons, so be sure to utilize the ones that are available if dealing with hordes.

Army Abilities: The Squats have a series of special rules that set them apart from the rest of the Codexes in the 40k settings. You will find them listed here to save on repetitive sections. Reference this section when consulting their rules.

Dishonour – If this unit ever rolls double 6s for a Ld test, they suffer -1 To Hit for the rest of the game.

Judgement – 24” Range. Place a Judgement Token on target unit. Any friendly unit targeting a Judged unit may reroll 1s To Wound, must declare a Charge if it is legal, and is Fearless anytime they take a Ld test involving the Judged unit. One Use Only.

This is a One Use Only ability, but the token is only removed when the Judged unit is removed from the game.

Steady Advance – This unit advances 3” instead of d6.

Leagues

Squat Leagues each specialize in aspects of their culture. The following League abilities offer trade offs for bonus abilities and weaknesses that come from their narrow scope of operations.

Average:

- This League uses the Codex exactly as it is presented.

Greater Thurian:

- Military Pride: Anytime a unit in your army fails a Ld test, it suffers a number of Auto Wounds equal to the amount your test failed by.
- Ruthless Efficiency: All Infantry models in your army gain Objective Secured.

Ironheads:

- Prospectors: All infantry models in your army count as double the model count for Contesting Objectives.
- Salvagers: Only one Objective Marker may be in your Deployment Zone, but enemy players cannot place Objective Markers in your Deployment Zone.

Tran-Hyperian Alliance:

- Nomad Strategists: For every 1000 point limit in your army (minimum of 1), you may redeploy 1 unit after Deployment is complete but before Infiltrators are placed or Scouts make their Scout move.
- Roaming Nomads: Models in your army only count as half a model for purposes of Contesting Objective Markers.

Kronus Hegemony:

- Aggressive Tactics: All models in your army gain Furious Charge
- Ill Tempered: All models in your army must declare a Charge if they can legally do so.

Ymyr Conglomerate:

- Master Armourers: All models in your army may reroll 1s for Armour Saves.
- Wealth Hoarders: All models in your army may not claim or contest Objective Markers in the enemy Deployment Zone.

Urani-Surtr Regulates:

- Dour Survivalists: All models in your army gain Ld+1 and may reroll failed Ld tests.
- Grim Pragmatism: All Infantry models in your army may only Claim or Contest Objective Markers that are not in your Deployment Zone.
